

Black Box

JAKE OLKIN, LIAM THOMAS, TOM WILDENHAIN

You've found the blackbox of the plane and have recovered the flight logs below, but one of the two data tracks has been corrupted. To determine how the plane crashed, you'll need to remember the path your flight took. You've passed over some exotic cities, but their names are surprisingly mundane.

DESTINATION	ELEVATION
1. _____	67
2. _____	0
3. _____	180
4. _____	2
5. _____	10
6. _____	1800

150° 135° 120° 105° 90° 75° 60° 45° 30° 15° 0° 15° 30° 45° 60° 75° 90° 105° 120° 135° 150° 165° 180°
