## EXPERIMENT #[REDACTED] - F A I L U R E

[6/29/17]: Sonic head-swapping device didn't work quite as planned. Resulted in unsightly mutations in test subjects. The obtained results, presented in alphabetical order, are quite cryptic and will require further study.

[7/3/17]: After analyzing these mutations, Dr. Brooker has announced that he has invented a piece of technology that could help avoid these errors in the future. Hopefully we can prevent another situation like this one.
