# SCENES OF THE CRIME

Jake Olkin
Cameron Montag

Here's the security footage of where the thieves likely were during their infiltration. Unfortunately, they managed to hack the footage and wipe any traces of the crime. By running some comparisons, we were able to recover some of the missing data! Although it just looks like gibberish... Our current suspicion is that the thieves left some vital clues behind at the scene of the crime.
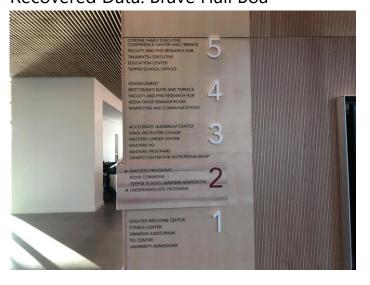

Recovered Data: Shore Moss Carol

Recovered Data: Crazy Lop On Bolt

Recovered Data: Brave Hall Boa

Recovered Data: Electrocuting Nominal Coma
