# BOOTLEG PRIMATE

We recently confiscated a set of five devices from the rogue island state of Anglophone Atlantis. The first four, labeled A, B, C, and D, take one input, while the last takes two. We're not sure how each of them works, but we know they can't make something that doesn't exist. Find out how the thieves used them.

FUTON → [A] → _____ → [D] → GUN
RUST → [A] → _____
GRUNT

TAN → [C] → _____
SUSPECT → [A] → _____
SECANT

EAR → [B] → _____ → [D] → TEAR → [D] → _____ → [C] → EAST

BOOTLEG PRIMATE

PRAM → [C] → _____ → [A] → RAP → [B] → _____ ⟶ GRASP

GAP → [B] → _____ ⟶ GRASP

LICORICE → [A] → _____ → [B] → SLICE → [D] → _____ → [A] → SIDE ⟶ BACKSIDE

BARRACK → [A] → _____ ⟶ BACKSIDE

None of these things seem to be affected by machines A, B, C or D...
