

Contagious Cognitohazard Containment Confusion

Isaac Grosf

As hinted by the flavor text, we are supposed to find the first point when the staff switches to telling lies. We take the first word of the sentence when they switch. After reading the testimonies, we can conclude that Alice must have broken the vessel, and was showered in glass

Alice: Telling lies from the start → **Tried**

Isabelle: “Hard evidence is never misleading ...” → **Hard**

Barnaby: Claimed that Darlene was covered in glass
→ **Just**

Charlie: Claimed that Darlene was covered in glass →
After

Darlene: Strontium DOES react with water → **Strontium**

“Tried Hard”, Just After Strontium in the [dictionary](#)
(6 letters)

ANSWER: **STROVE**
