

ISLAND CHEF AMERICA

Liam Thomas

For each dish, there is a unique sequence of moves (ignoring actions which take no time, like viewing your inventory or examining objects) which will let you cook it. Completing and eating each dish will give you a bolded sentence with an all-caps word. Reading these words in order gives a clue phrase "TRACE THE PATHS YOU TOOK." Indeed, cooking each dish draws a capital letter on the 3x3 map of the text adventure. Reading these letters off in sequence will give the answer EXTRA. We present the solutions for each dish below.
