

# ARCHIPELAGO

ISAAC GROSOF, TOM WILDENHAIN

Each blue region depicts the shape of an island somewhere in the world. Islands can be identified by finding them on a world map. Translate the word "Island" into the language spoken on that island and extract the indicated character.

The example shows Great Britain and has the world Island written in English.

The final answer is **JOSTLE**

Great Britain  
English  
Island -> **ISLAND**
