

Art Gallery

Having just finished Images Lab, it is time to be subjected to the creativity of your peers! You might not be sure what these images are supposed to be, but remember, a good art critic can find meaning in anything.

The letters **MA** become three-dimensional when you cross your eyes

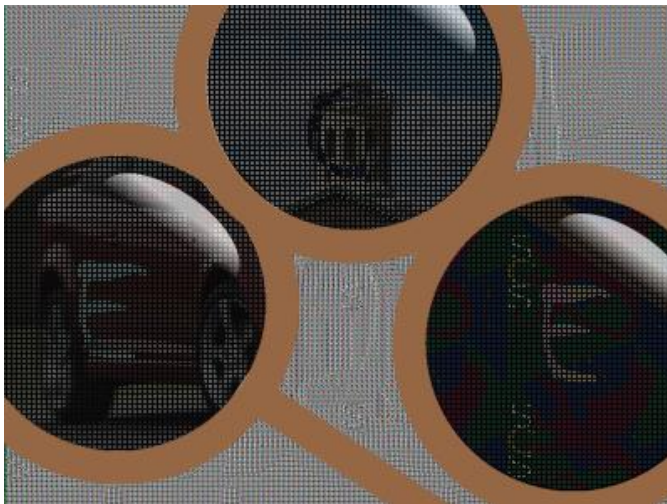

The opacity has been set to 1. Stacking multiple copies of the image reveals **ST**

The pixels where the images differ spell **ER**

Placing the image on a dark background reveals **PI**

Placing the magnifying glass over the image makes the letters **ECE** visible
