

# Keep Coding and Nobody Explodes

The puzzle links to a virtual bomb based on the game *Keep Talking and Nobody Explodes*. The bomb defusal manual explains how each module must be solved to defuse the bomb. After solving each bomb, the website produces a "key". Combining the 5 keys using the provided tool reveals the message **KILLSIGNAL**.

Enable music

Use the keys from each bomb to decrypt the final answer.  
Progress is saved locally. Copy the keys for each bomb you complete to ensure you don't lose progress.  
The bomb is tamper-resistant, so changing the JS code will likely make it detonate.

Bomb 1 key:   
 Bomb 2 key:   
 Bomb 3 key:   
 Bomb 4 key:   
 Bomb 5 key:

Decrypt

Message: KILLSIGNAL
